¹ This projection is revised from \$10,151,290. The \$10,151,290 projection included two separate processes. One process, making multi-year program grants, is complete. This amounts to \$5,700,000. The projection for the second process, making support grant augmentations, was revised upward, as we refined our calculations. VISTA approved up to \$6,958,336, making the combined total \$12,658,336, compared to the earlier figure of \$10,151,290. \$2,373,416 of these dollars have been awarded. That figure, plus the other \$5,700,000, results in the \$8,073,416 that has been awarded.
